### Photos

The photographer will be in school on Friday 11<sup>th</sup> June taking our class and group photos.

### Week Ending 14.5.21

This week has been busy as always, with the children impressing us in so many areas. We hope you are enjoying receiving postcards when they really shine!

We have decided to have a revamp of this weekly newsletter and are going to go digital with videos to watch! This will be available before half term, but please bear with us as we perfect this in the first few attempts! A link will be sent via email and it will also be added to the website.

It was great to hear that the next step of the roadmap out of lockdown has been approved by the government this week, so we can enjoy staying over with friends and family and dining out. There are no changes to bubbles and staggered times in school as yet but we will keep you informed as we receive updates. Have a lovely weekend!

### What have we been doing? Follow @WBJuniorSchool

#### Year3

This has been our last week of fractions in Maths, we've been learning how to add, subtract and order them - we are now officially Fraction Masters. In Literacy we have been writing our own fable story about a lion and a butterfly, in order to teach the moral that appearances can be deceptive. As scientists this week we have been investigating skeletons, looking at its key elements and functions. See what else you can research at home. Please follow our twitter feed. @WBYear3

#### Year 4

This week, year 4 have been learning all about how to keep our teeth healthy. We carried out an experiment which tested the strength of our teeth and what drinks may damage them. We were amazed by the results, ask us what happened! In the mornings, we have been learning how to add and subtract amounts of money by visiting our pretend Yorkshire Wildlife Park gift shop. During literacy, we have been writing our second chapter to our story, "We Have Lift Off!" @WBYear4

#### Year 5

This week we have been building up to writing our descriptive paragraph around a stormy sea setting. We are really trying to focus in on our sentence types, ensuring that our language choices are fit for purpose. In topic we have been looking at the river Severn and how people have used the river over the years, through the industrial revolution to how the river is used today. We have been using our map reading skills to locate features along the river. @WBYear5

#### Year 6

This week in year 6 we have finalised our newspaper articles from Romeo & Juliet, and have also worked to consolidate our knowledge on angles. In whole class reading we have started to look at a play script, and have continued learning about animals and living things as part of our science topic in afternoons! @WBYear6

### Scholarpack Parents App

Don't forget that parents can download the scholar pack app to check and update their child's details, see attendance percentages and send us a message. Contact the school for your access code once you have downloaded the app

## PE Timetable

### Year 3

Tuesday & Thursday

### Year 4

Wednesday & Thursday

### Year 5

Tuesday & Friday

### Year 6

Monday & Friday

## PE Shoes

Please could children bring a spare pair of shoes for PE and a spare bag to put them into to bring home

## Learning Mentor Update

WBSJ are amongst over 1000 schools taking part in the national Walk to School week event.

We would like our pupils to walk to school during Walk to School Week (17-21 May) and we will be carrying out a survey with all classes in school to find out how children travelled to school on that day by the following modes; walking, cycling, bus/train, car or scooter or park and stride. We look forward to seeing the big differences that come from small steps. This could be healthier and happier children and fewer cars outside the school gates.

This year's challenge will focus on the walking superpowers that benefit individuals, communities and the planet. We will teach pupils about the benefits of being active and reinforce the power of walking. Daily reward stickers and special reward badges are up for grabs at the end of the week for those who travelled actively every day.

## E-safety

Internet matters have released a new report sharing the following Information collected from parents across the country:

- There has been an 89% increase of children actively broadcasting their own videos online.
- There was a 42% increase in children spending money online.
- Nearly a quarter of parents of vulnerable children report that their child has experienced online bullying.

It is vital that together we embed the importance of being safe online so please take some time to chat with your children about their internet interactions.

## Attendance Totals in each class this week

3LC 97%	3B 94%	3J 96%	4HS 91%	4F 98%	4S 92%	5BL 89%	5A 95%	5S 95%	5F 94%	6RB 93%	6B 92%	6ES 97%

## Dinner

### Taste of America Thursday 20<sup>th</sup> May Tasty Mains

Beef Burger or Veggie Hot Dog

~~~~~  
Baked Potato with Cheese  
Scrummy Sides

Chips and Sweetcorn

Yummy Desserts

Chocolate Cake

£2.30 book yours at the school office.

## EID Celebration

Thank you to Mrs Salameh for sharing some Eid celebration treats with us!

## Science

The year 4s have come up with their own question to investigate relating to teeth. We are using eggs to test our question as they have a similar shell to the enamel on our teeth! Check back next week for updates.
