The risk rating and the residual risk rating may change depending on local circumstance/ building. Where the risk rating moves from a green or amber to a red or from an amber or red to a green, this must be agreed by the CEO and DoF&O.

Risk assessments are all quality assured to ensure they reflect the operational environment

IMPACT						

The purpose of a risk assessment is not to eliminate all risks, but to put in place control measures in order to mitigate against them as far as possible. It is not realistic to expect that all risk measures should be rated as minor (green). The probability of something happening may be low, but should it happen, the impact would be high, and the risk would therefore be rated as red (severe). In practice, for example, if there was not sufficient cleaning capacity in place to clean an academy, the impact of this would be high, in that we would not be able to open the academy due to the stringent requirements around hygiene. This may therefore rate red on the risk assessment. This does not mean we do not have sufficient cleaning capacity, but only that should this be the case, the impact of this would be high.

1.1 Organisation of classes (DoSI, EP & P)					
Unintended mixing between classes will increase the risk of the virus spreading	12 - Major	a) There is full compliance with the DfE system control measures set out in the latest government guidance. b) Each class will predominantly remain within its designated room/space during teaching time. c) Timetabled use of shared areas d) Pupils observe hygiene guidance and wash/sanitise hands frequently limiting risk of contamination from frequently touched surfaces. e) A 1m gap will be left between classes in assemblies. Assemblies will be restricted to two year groups only. Measures including keeping children in separate bubbles will only be reinstated should an outbreak occur. See Outbreak Management Plan.	a)Yes b)Yes c)Yes d)Yes e) Yes Currently not in place	25.2.22 Mixed assemblies reinstated.	8 - Moderate
1.2 Organisation of teaching spaces (DoSI, EP & P)					
Teaching pupils in full classes will increase the risk of the virus spreading	9 - Moderate	a) There is full compliance with the DfE system control measures set out in the latest government guidance. b) Pupils observe hygiene guidance and wash hands frequently. c) Good respiratory hygiene is ensured by promoting the 'catch it, bin it, kill it' approach. d) Enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents throughout the day. e) Age appropriate signage is displayed promoting handwashing.	a)Yes b)Yes c)Yes d)Yes e)Yes	4.1.22 Increased ventilation in all classrooms. Children and staff to be permitted to wear extra layers under school clothing to avoid chill. COS monitors in classrooms	4 - Moderate
The use of shared spaces and specialist classrooms increases the risk of infection between bubbles	12 - Major	a) Large and specialist spaces are cleaned and disinfected thoroughly before and after use. b) Assemblies will resume but be limited to 2 year groups at a time. 1m gaps will be left between year group rows. c) Other shared spaces will be arranged to leave a 1m gap between classes where possible.	a)Yes b)Yes c)Yes	No assemblies 12.21	8 - Moderate
1.3 Availability of Staffing (CEO, DoSI, EP & P)					

Areas for concern	Risk rating prior to action (H/M/L)	Control measures	In place? (Yes/No)	Additional measures / comments	Residual risk rating (H/M/L)
Due to COVID-19, the number of staff who are available is lower than that required to teach classes in academy	15 - Major	a) Clinically extremely vulnerable staff are able to work in school with added precautions and full risk assessments. b) Clinically vulnerable staff can work in the academy with extra attention paid to washing hands and maintaining social distance with a full risk assessment in place. c) There is full compliance with the DfE system control measures set out in the latest government guidance. d) Full use of testing (including lateral flow test where available) is used to inform staff deployment. e) The health status and availability of every member of staff is known and is regularly updated so that deployment can be planned. f) A pregnancy risk assessment is in place for any pregnant staff.	a)NA b)Yes c)Yes d)Yes e)Yes f)NA	a)No clinically extremely vulnerable staff in school at present. 4.1.22 Staff vaccination status collated. Staff absence levels monitored and discussed with Trust.	9 - Moderate
1.4 The academy day (CEO, DoSI, EP & P)					
The start and end of the academy day create risks of contact between discrete class bubbles	15 - Major	Measures including staggering start and finish times will only be reinstated should an outbreak occur. See Outbreak Management Plan. a) A plan is in place for managing the movement of people on arrival and at the end of the day to avoid groups of people congregating. Pupils will come straight into school on arrival with year 3/4/5 parents leaving children at the gate in order to reduce congestion. Parents to wait at class doors rather than in large groups at the entrance at pick up time. b) The number of entrances and exits to be used is maximised to avoid mixing. c) Different entrances/exits are used for different groups. d) Staff and pupils are briefed, and signage provided to identify which entrances, exits and circulation routes to use.	a)Yes b)Yes c)Yes d)Yes		9 - Moderate
1.5 Planning movement around the academy (DoSI, EP & P)					
Movement around the academy risks contact between discrete class group bubbles	12 - Major	Although pupils will not be in discrete bubbles (unless an outbreak occurs) , the following measures will be in place to minimise contact: a) Timetabling avoids more than one class / year group moving between areas at the same time in the same part of the building.	a)Yes		5 - Moderate

1.6 Supporting children with special needs (DoSI, EP & P)					
Pupils with special needs are not supported and fail to keep pace with their peers should they be unable to attend school (e.g. extremely critically vulnerable / critically vulnerable)	15 - Major	<ul style="list-style-type: none"> a) The SENDCo keeps an up to date record of all children with additional needs. b) IEPs are reviewed regularly to ensure that children's needs are met. c) Vulnerable pupils and their provision are discussed every week at senior leadership meetings. d) The SENDCo monitors engagement with remote learning where students are not accessing face to face teaching. e) Teachers and the SENDCo engage with parents to ensure that these pupils needs are being met through the remote learning offer. f) Where necessary, children with SEND will be provided with bespoke materials to continue with their learning. g) Specialist teachers will be given usual levels of access to the academy. Where required, these visitors will be provided with PPE to allow them to access their work. h) Appropriate levels of supports will be provided with SEND in accordance with their EHCP. 	<ul style="list-style-type: none"> a)Yes b)Yes c)Yes d)Yes e)Yes f)Yes g)Yes h)Yes 		9 - Moderate
1.7 Curriculum organisation (CEO, DoSI, EP & P)					
Having missed on-site learning for an extended time, pupils will have fallen behind in their progress during academy closures and achievement gaps will have widened	20 - Severe	<ul style="list-style-type: none"> a) Gaps in learning are assessed and addressed systematically in teachers' planning. b) Where possible, foundation subjects are used to practise and deepen children's learning in core subjects. c) Remote learning continues and are calibrated to complement in-academy learning and address gaps identified where pupils are unable to attend school due to COVID-19. d) Groups of pupils may undertake sport / PE indoors in well ventilated rooms. However, where possible, all sporting activity will take place outdoors. 	<ul style="list-style-type: none"> a)Yes b)Yes c)Yes d)Yes 		15 - Major

		e) Subject leaders will monitor coverage of their curriculum area.	e)Yes		
Some learning activities (for example singing, wind and brass playing and some sports) pose increased risks of spreading COVID-19 infection	10 - Major	a) Learning activities for which there is a greater risk of infection are identified and relevant staff informed. b) Opportunities for singing outdoors are sought when the weather allows. If not possible this takes place in well-ventilated spaces. c) Enrichment activities are reviewed and revised accordingly, and are preferably outside. d) Arrangements are reviewed regularly and there is full compliance with the DfE system control measures set out in the latest government guidance.	a)Yes b)Yes c)Yes d)Yes	19.11.21 Assemblies have been cancelled and are to take place in classrooms only with individual classes. 14.1.22 Assemblies to be re-introduced for single year groups only, with 2m gaps between classes.	4 - Moderate
The resumption of non-overnight academy visits poses risks to infection control	10 - Major	a) Visits re-introduced with clear risk assessments and control measure in place to limit virus risk. All involved to be made aware that visits could be subject to change at short notice.	a)Yes	Additional Covid sections in place on risk assessments for trips. All xmas activities to be separate year groups – parties, church, assemblies. Pantomime upper and lower school separate.	4- Moderate
1.8 Staff workspaces (DoSI, EP & P)					
Staff rooms and offices do not allow for observation of social distancing guidelines	15 - Major	Measures including staff social distancing will only be reinstated should an outbreak occur. See Outbreak Management Plan. a) Staff rooms and offices will be well ventilated; doors and windows should be opened to improve natural ventilation where possible. b) Staff are permitted to wear a face covering if they choose to do so, or have been advised to do so by a healthcare professional.	a)Yes b)Yes	3.1.22 Distancing measures for staff in communal areas such as the staffroom to be reintroduced. Training day to be reorganised to allow for social distancing.	9 - Moderate

2. Investing in health and safety arrangements and safety equipment to limit the spread of COVID-19					
2.1 Public Health England system control measures (CEO, DoF&O, DoSI, EP)					
Lack of a comprehensive plan to implement PHE system control measures increases the risk of infection in the academy	25 - Severe	<p>Current government guidance is being applied, and specifically the DfE system of control measures set out in the latest government guidance are in place as follows:</p> <p>1. Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, do not attend academy</p> <p>This information is issued at staff and pupil briefings and in letters home to parents:</p> <ul style="list-style-type: none"> • Anyone with symptoms must remain at home and self-isolate for 10 days if they test positive. • Any pupil or staff member needs to go home immediately if they have symptoms. They should take a test as soon as possible. • A child with symptoms awaiting collection needs to be isolated and kept at a distance of 2m from the supervising staff member, ideally in a well-ventilated place. PPE is required if this distance cannot be maintained or there is a risk of contaminated bodily fluids. • If the child uses the bathroom, it must be thoroughly disinfected before use by anyone else. • Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned with disinfectant after they have left to reduce the risk of passing the infection on to other people. • Routinely taking the temperature of pupils is not recommended by Public Health England as this is an unreliable method for identifying coronavirus (COVID-19). <p>In addition:</p>	1.Yes	<p>Added on 6/12/21:</p> <ul style="list-style-type: none"> • Lateral flow tests to be taken on the morning of a meeting/visit . • Increased sanitising • Staff to be social distancing once inside other academies. • Masks to be worn in all communal areas by staff and visitors • Masks to be worn in the front office by parents, visitors and staff. Both pupils and staff will be permitted to wear face coverings if they choose to do this.</p> <p>3. Clean hands thoroughly more often than usual</p> <ul style="list-style-type: none"> • Handwashing / sanitising is scheduled into the academy day. It takes place as a minimum: when pupils, staff or visitors enter the academy; at break; before and after lunch; before leaving academy; whenever the toilet is used. • Handwashing routines are re-taught to pupils using suitable video. • Checks are scheduled during the day on stocks of hand sanitiser, soap and paper towels. Steps are taken to ensure that there is sufficient supply in academy. <p>4. Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach</p> <ul style="list-style-type: none"> • Posters are downloaded/made/bought that remind pupils and staff about the approach and the importance of handwashing and are displayed around the academy, particularly by washbasins/ toilets and at entry/exit points. • The location of bins around the academy is checked, and more are ordered if necessary. • A schedule for bins to be emptied / disinfected is in place and is adhered to. • Pupils using public transport are reminded of the need to wear face coverings/masks. • A stock of masks is maintained and available when needed. <p>5. Stocks of PPE are regularly monitored and replenished <p>8. Keeping Occupied spaces well ventilated</p> <p>Once the academy is in operation, it is important to ensure it is well ventilated and a comfortable teaching environment is maintained.</p> <p>This can be achieved by a variety of measures including:</p> <ul style="list-style-type: none"> Mechanical ventilation systems – these should be adjusted to increase the ventilation rate wherever possible, and checked to confirm that normal operation meets current guidance (if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply) Natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background 	<p>6.Yes</p> <p>7.Yes</p> <p>8.Yes</p>

Engage with the NHS Test and Trace process</p> <ul style="list-style-type: none"> • Academy leaders understand the complexity of the arrangements for testing and self-isolation and ensure that staff and parents are fully aware of them. Special advice sheets are prepared in the event that a child is sent home with symptoms, for the parents of that child. • Staff induction for return to academy includes information about the NHS Test and Trace process. <p>10. Manage confirmed cases of coronavirus (COVID-19) amongst the academy community</p> <ul style="list-style-type: none"> • The contact details for local Public Health England team and local authority health and safety team are readily to hand. • A spreadsheet is maintained to record all staff and pupils who are self-isolating who have tested positive.
