

Maths this week:

AUTUMN TERM 2

WEEK 5

30/11/2018

In Year 3...

Year 3 are going to be working on consolidating the four operations next week. Can your child solve the following questions?

1. $544 + 375 =$

2. $356 - 234 =$

3. $243 \times 3 =$

4. $268 \div 4 =$

Next week, the children will be solving two step problems involving their four operation skills. Can your child solve the following question?

Joe had to write a story with 100 words.

In the first week he wrote 17 words. In the second week he wrote 13 words. How many more words does he need to write?

In Year 4...

In year 4, the children have been revising roman numerals and negative numbers.

Next week, the children are going to consolidate place value and complete their tests for the end of term 1. Can your child complete the arithmetic questions on the right hand side?

The children are also still working on their 9x table.

1. $235 \times 8 = ?$
2. $400 - 345 = ?$
3. $? \times 10 = 450$
4. $248 \div 4 = ?$
5. $34 \times 9 = ?$
6. $3467 - 934 = ?$
7. $56 \div 8 = ?$
8. $100 \times ? = 500$
9. $576 \div 10 = ?$
10. $90 \times 9 = ?$
11. $4 \times 5 \times 2 = ?$
12. $9 \times ? = 99$

- $9 \times 1 = 9$
- $9 \times 2 = 18$
- $9 \times 3 = 27$
- $9 \times 4 = 36$
- $9 \times 5 = 45$
- $9 \times 6 = 54$
- $9 \times 7 = 63$
- $9 \times 8 = 72$
- $9 \times 9 = 81$
- $9 \times 10 = 90$
- $9 \times 11 = 99$
- $9 \times 12 = 108$

In Year 5...

This week, year 5 have been learning how to find the area of compound shapes. Some children still need more practise with this.

Next week, the children are revising certain objectives from year 5 and completing a test so we can see how much progress they have made this term.

Extra practise with finding the area of compound shapes would benefit them before the test next week. Can your child complete the question below?

$$1000 \times ? = 560$$

$$? \div 100 = 2.3$$

$$100 \times 4.5 = ?$$

$$10 \times 10 \times 10 = ?$$

In year 6, the children have been working on percentages but they are consolidating this next week before they complete their end of term test.

In Year 6...

Can your child complete the percentage questions below?

13% of 80

$$10\% = 8$$

$$1\% = 0.8 \times 3 = 2.4$$

$$8 + 2.4 = 10.4$$

1. 12% of 80 = ?

2. 34% of 200 = ?

Here is a QR code for you to scan so you can view the tests the children will be completing next week:

Arithmetic challenge:

1. $2/6 + 1/5 =$

2. $57 \times 67 =$

3. $6783 \div 8 =$

4. $3542 \div 7 =$

5. $6/8 - 1/5 =$

6. $1/5 = ?/500$

7. $23.27 + 48 =$

8. $1000 - 25 =$

9. $854 \times 36 =$

10. $2/6 \times 3/7 =$

11. 26% of 50 =

12. 45% of 90 =
